10	Bass	Wedge	SL
11	Sax	Wedge	DSL

Final Comments

The COLOHAN band performs shows with varying numbers of members. This Tech Rider/Stage Plot is mostly generalised for our full production (7 band members).

However, If the band will be performing with a stripped-back lineup, it will be made clear in multiple parts of the rider which members and which parts of the tech rider can be disregarded.

If there are any queries please don't hesitate to contact us.

Thank you, we look forward to working with you!
